

## Political leanings and Prop 37: Do they correlate?

One aspect of the Prop 37 issue is that it is an area where the Left may be stated to be “anti-science.” This is why this was highlighted in [Science Left Behind](#). But there’s a problem with this narrative: the survey data for it is weak. There are broad suggestive patterns...but the reality is that the strongest predictor of skepticism of genetically modified organisms is lower socioeconomic status.
