

Eco-feminist says farmers who use GMOs are like rapists

Dr. Vandana Shiva, eco-feminist – whatever that means – philosopher and environmental activist [does not like that Mark Lynas has changed from being an anti-GMO crackpot, like her, to accepting science.](#)

On her Twitterfeed, which is chock full of lunatic rantings for the 17X as many followers of her nonsense as I have, she provided an extra-special treat for her acolytes: she said that allowing farmers to use GMOs was the same as telling rapists it is okay to rape.
