

Activist Vandana Shiva address GMO labeling rally in Hawaii (video)

Edited from the livestream of the event held at the Hawaii State Capitol on January 16, the video contains Dr Vandana's Shiva's speech on GMOs and the future of farming.

On the opening day of the 2013 Hawaii State Legislature, Dr. Shiva, the renowned anti-GMO activist from India visited Hawaii.

To quote Dr. Shiva, "The only thing that Monsanto can bring us is a suicide economy. For the farmers who have committed suicide, for our children whose future is being robbed, for the planet where we commit a planetary collective suicide, in terms of wiping out our future."

"We will create Earth democracy. Our legislators will have to take instructions from the Earth, from the children, from the future."
