

International conference tackles the adoption of biotech crops in developing countries

The following is an excerpt.

An international conference presenting the key findings of a research project *Adoption and Uptake Pathways of GM/Biotech Crops by Small-scale, Resource-poor Asian Farmers in China, India, and the Philippines* and their implications to biotech adoption particularly in developing countries was held at Hyatt Hotel in Manila, Philippines on April 2 and 3, 2013. The said conference was co-organized by John Templeton Foundation, [International Service for the Acquisition of Agri-biotech Applications](#) (ISAAA), the Southeast Asian Regional Center for Graduate Study and Research in Agriculture (SEARCA), the National Academy of Science and Technology (NAST Philippines) and the Agricultural Biotechnology Support Project II (ABSPII).
