

Only way to prevent human clones is to prohibit new stem cell cloning technique

*The following is an excerpt.*

The *Los Angeles Times* has waded in to the junk biology game, assuring us that no embryos are threatened in human cloning — WHEN THE WHOLE POINT OF HUMAN CLONING IS TO CREATE AN EMBRYO! From the editorial, [“The Specter of Human Cloning:”](#)

Pay close attention: *Dolly came from an “unfertilized egg” and became a sheep. Before that, she was a sheep embryo and a sheep fetus.* The act of cloning does not get the egg to create stem cells, it produces an embryo. After that, the cloning is over and the question becomes what to do with the embryo, NOT WHAT TO DO WITH THE UNFERTILIZED EGG!
