

## Prince Charles warns GM crops risk causing the biggest-ever environmental disaster

In his most outspoken intervention on the issue of GM food, the Prince said that multi-national companies were conducting an experiment with nature which had gone “seriously wrong”.

The Prince, in an exclusive interview with the Daily Telegraph, also expressed the fear that food would run out because of the damage being wreaked on the earth's soil by scientists' research.

He accused firms of conducting a “gigantic experiment I think with nature and the whole of humanity which has gone seriously wrong”. “Why else are we facing all these challenges, climate change and everything?”.
