Is President Trump pro-GMO?

"We are streamlining regulations that have blocked cutting-edge biotechnology, setting free our farmers to innovate, thrive, and to grow," Trump told a meeting of the American Farm Bureau Federation in Nashville, Tennessee, on January 8.

• • •

He's pro-GMO? Sounds like it. KFC-loving Trump may have been referring to how, in November [2017], his administration <u>scrapped USDA rules</u> that would have regulated plants created <u>through geneediting tools</u> like CRISPR.
