

KFC tests Beyond Meat wings, nuggets to size up demand for plant-based chicken

Kentucky Fried Chicken on [August 26] said it plans to start testing Beyond Meat chicken nuggets and boneless wings this week for a limited time, making it the first fast-food chicken chain to join the plant-based craze.

KFC said it will test the Beyond Fried Chicken at a single restaurant near SunTrust Park in suburban Atlanta beginning [August 27]. The company is testing the product as it evaluates a potential national rollout.
